

Seminar of the Joint Mass Spectrometry Centre and the Virtual Helmholtz Institute HICE: Summer term 2013

#	Date/Time	Speaker	Title
1	16.04.2013	Dr. Ales Svatos Max Planck Institute for Chemical Ecology, Jena	Mass spectrometric imaging of metabolites
2	23.04.2013	Dr. Thomas Zeuch Universität Göttingen	Structure and dynamics of species that initiate soot formation and water aggregation
3	07.5.2013	Dr. Bert Ungethüm Airsense Analytics GmbH, Schwerin	Ion mobility spectrometry: Technique and applications
4	21.05.2013	Prof. Dr. Andrea Sinz Universität Halle (invited by Prof. M. Glocker)	Chemical Cross-Linking and Mass Spectrometry: A Fruitful Combination for Protein 3D-Structure Analysis
5	28.05.2013	Prof. Dr. Hans-Gerd Löhmannsröben Universität Potsdam	Laser spectroscopy and fibre-optical sensing for (bio)chemical diagnostics
6	04.06.2013	Dr. Olli Sippula Universität Rostock and University of Eastern Finland	Particulate emissions from a marine diesel engine - Chemical characterization and comparison to other combustion processes
7	25.06.2013	Prof. Dr. Jorma Jokiniemi University of Eastern Finland	Physical and Chemical Properties of Fine Particles Emitted from Small Scale Biomass Combustion
8	01.07.2013 (Monday!, 17:30 h)	Prof. Dr. Oliver Schmitz Universität Duisburg-Essen	GDCh Fresenius Lecture: Atmospheric-pressure laser ionization (APLI) in trace analysis: scientific findings, latest developments and outlook
9	02.07.2013	Dr. Alexander Makarov Thermo Inc., Bremen	Title to be announced
10	09.07.2013	Dr. Jeff Patrick (requested) LECO Inc., USA	Title to be announced

The seminar takes place - if not otherwise stated - on Tuesdays at 17:30 h in room 201, Lecturing building, Institute of Chemistry, Albert Einstein Straße 3a, 18059 Rostock. The lectures are also transmitted via the internet to the Helmholtz Zentrum München and to further partners of the Virtual Helmholtz Institute HICE upon request.
